

Smoke Alarm Safety Tips

- Test smoke alarms at least once a month using the test button, and make sure everyone in your home knows their sound.
- If an alarm “chirps,” warning the battery is low, replace the battery right away.
- Replace all smoke alarms, including alarms that use 10-year batteries and hard-wired alarms, when they’re 10 years old (or sooner) if they do not respond properly when tested.
- Never remove or disable a smoke alarm.
- For assistance with your smoke alarms call the Franklin Fire Department at (615) 791-3270.
